SUBJECT INDEX

Entries with pages in Roman type appear in this volume; *entries with data in Italic type appear in Pediatrics in Review.*

Abdomen, intermittent pain, ureteropelvic junction obstruction as cause for, 1066
Accident: *see* Injury
Acetonitrile, ingestion, cyanide toxicity from, 337
Aciduria, glutaric, glutaryl-coenzyme A dehydrogenase deficiency, 1194
Acquired immunodeficiency syndrome
  perinatally acquired, low-dose zidovudine treatment, 364
  -risk behavior, psychosocial influences, adolescents, 846
  risk prediction, urban adolescents, 982
Acute mountain sickness, prevention and treatment, 967
Adolescent
  AIDS-risk behavior, psychosocial influences, 846
  behavioral consequences of marijuana (committee statement), 1070
  body building terminology (letters), 417
  chronic fatigue, infectious and psychologic aspects, 195
  disabled, family and peer interactions, 280
  hypercholesterolemia, screening strategies, high-risk patients, 269
  lipid profiles, passive smoking effect, 259
  risk, human immunodeficiency virus (commentary), 1052
  steroid use, drug education programs (letters), 1078
  suicide, school consultation after (letters), 188
  suicide attempters, differentiation, at-risk adolescents, 608, 636 (commentary)
  tobacco use, prevention, physician's guide to, 140
  urban, HIV seroprevalence, 982
Adoption, initial medical evaluation (committee statement), 642
Aflatoxin, role, Kwashiorkor etiology (commentary), 376
Age, epidemiological factor, *Helicobacter pylori* infection, 578
AIDS: *see* Acquired immunodeficiency syndrome
Airway pressure, nasal continuous positive, comparison, oxyhood, very low birth weight infants, 999
Albuterol, acute and chronic effects, comparison, metaproterenol, 312
American Academy of Pediatrics
  Committee statements
    Committee on Adolescence and Committee on Substance Abuse: Marijuana: A continuing concern for pediatricians, 1070
    Committee on Drugs: Prescription drug advertising direct to the consumer, 174
    Committee on Early Childhood, Adoption & Dependent Care: Initial medical evaluation of an adopted child, 642
    Committee on Genetics: Maternal phenylketonuria, 1284
    Committee on Genetics: Maternal serum α-fetoprotein screening, 1282
    Committee on Infectious Diseases: The status of acellular pertussis vaccines: Current perspectives, 401
    Committee on Infectious Diseases: The relationship between pertussis vaccine and brain damage: Reassessment, 397
    Committee on Infectious Diseases: *Haemophilus influenzae* type B conjugate vaccines: Recommendations for immunization of infants and children 2 months of age and older: Update, 169
    Committee on Infectious Diseases: Treatment of Lyme borreliosis, 176
    Committee on Injury and Poison Prevention: Children in pickup trucks, 393
    Committee on Injury and Poison Prevention: Children and fireworks, 652
    Committee on Injury and Poison Prevention: The 55 miles per hour maximum speed limit, 654
    Committee on School Health: School health assessments, 649
    Committee on School Health: Corporal punishment in schools, 173
    Committee on Sports Medicine and Fitness: Human immunodeficiency virus [acquired immunodeficiency syndrome (AIDS) virus] in the athletic setting, 640
    Committee on Substance Abuse: Hazards of clove cigarettes, 395
  financial gifts from for-profit corporations (commentary), 1278
  Section report, Section on Urology: Summary of the annual meeting, 406
  Task Force on Pediatric AIDS: Education of children with human immunodeficiency virus infection, 645
  task force report erratum (letter), 191
American Board of Pediatrics, candidates certified, 192
Analgesia, sucrose effectiveness, newborn infants (letter), 655
Anaphylaxis, measles-mumps-rubella vaccine and, egg-sensitive children, 913
Anemia, iron-deficiency, iron supplementation plus iron-fortified formula, 320
Anesthesia, local, lumbar puncture, neonate, clinical trial, 663
Anorexia nervosa, comparison, nutritional dwarfing, 926
Antibody, cross-reactive, influenza B viruses, 1031
Antiemetic, neuroleptic malignant syndrome induced by (letters), 1074
Aorta, coarctation, reversible acute renal failure in infant with, 816
Apnea, home monitoriting, parental reports, 1100
Arthritis
  juvenile chronic, deflazacort versus prednisone, 428
  juvenile rheumatoid, deflazacort versus prednisone, 428
Articulation disorder, verbal dyspraxia, patients with treated galactosemia, 346
Aspartame, starvation ketosis after rehydration with diet soda, 806
Asthma
  acute bronchial, paralysis during recovery from, 276
  albuterol versus metaproterenol treatment, acute and chronic effects, 312
  food sensitivity and (letters), 419
  methylprednisolone therapy, clinical trial (letters), 185
  severe, cardiotoxicity during treatment of, 1180

Attention deficit hyperactivity disorder
behavior modification, with and without methylphenidate, 560
sugar effect, 960
Autism
clinical characteristics, 1211
epilepsy risk factors, 1219

Back pain, psychosomatic, clinical and psychological analyses, 1093
Balanitis, group A β-hemolytic streptococcal, prepubertal males, 154
Behavior
aggressive, sugar effect, attention deficit disorder with hyperactivity, 960
neonatal, after prenatal cocaine exposure, 481
problems
corporal punishment in schools (committee statement), 173
early infancy, later parental perceptions, 757
sexual, preadolescent children, 456
social environment and, low birth weight children, 943
stress, perinatal cocaine effects, 477
Behavior modification, attention deficit hyperactivity disorder, with and without methylphenidate, 560
Bicycle, head injury, helmet promotion in emergency room after, 43
Birth, perinatal complication, predictor of cognitive and motor development, 954
Birth defect, Weaver syndrome, case report and literature review, 1106
Blood coagulation, factor V inhibitor, development after liver transplantation, 156
Blood transfusion, neonatal, neuropsychological development after HIV infection, 58
Body building, terminology (letters), 417
Body functioning, reasoning about, children with chronic illness, 608
Bone
accelerated maturation, case report and literature review, 1106
fracture, accidental injury versus child abuse, 471
infectious disease, active congenital syphilis in asymptomatic newborns, 1037
lesion, incidence, asymptomatic congenital syphilis, 1037
Bowed legs, Weismann-Netter syndrome as cause of, 334
Bradycardia, home monitoring, parental reports, 1100
Brain damage, pertussis vaccine and, reassessment (committee statement), 397
Brain lesion
lateralization, after extracorporeal membrane oxygenation, 1004
presumed fetal onset, cerebral palsy and, 898
Brainstem lesion, probable mechanism for congenital central hypoventilation syndrome, 993
Breast-feeding
cimetidine and (letters), 1294
difficulty, new clue to clavicular fracture (letter), 657
early formula supplementation, influencing factors, 745
incidence and correlates of, socioeconomically disadvantaged women, 728
infectious illness and (letters), 1079
maternal diet effect on human milk and nursling behavior, 737
recent declines, demography, United States, 719
trends (commentary), 867, 873 (letter)
vitamin K status of lactating mothers, milk, and infants, 751
Breathing, sleep-disordered, Down syndrome, 132
Bronchodilator, albuterol versus metaproterenol, acute and chronic effects, 312
Bronchopulmonary dysplasia
bovine surfactant treatment
low birth weight neonates, 19
very premature neonates, 10
dexamethasone therapy, double-blind controlled trial, neonate, 421
mortality risk, chronically ventilated infants, 1153
prediction risk (letters), 189
rehospitalization risk factor, preterm infants, 527
Burn: *see* Injury

Cancer
chemotherapy, behavior intervention, 34
procedures, midazolam for conscious sedation during, 1172
Captopril, reversible acute renal failure caused by, infant with coarctation of aorta, 816
Cardiac lesions, after Kawasaki disease, statistical analysis, Japan, 1144
Cardiotoxicity, isoproterenol-associated, during treatment of severe asthma, 1180
Carnitine, secondary deficiency, glutaryl-coenzyme A dehydrogenase deficiency, 1194
Carotid ligation, brain lesion lateralization after, infants undergoing extracorporeal membrane oxygenation, 1004
Catecholamine, circulating concentrations, cocaine-exposed neonate, 481
Catheter, long-term indwelling arterial, retinopathy of prematurity and (letter), 874
Cerebral palsy
adolescent, family and peer interactions, 280
antepartum cause, 898
early physiotherapy intervention and, very low birth weigh infants, 547
hemiparetic, prenatal origin (commentary), 1059
incidence, after electroencephalographically proven neonatal seizure, 583
Cerebrospinal fluid, creatine kinase isoenzyme BB concentration, neonates with neurologic disorder, 1204
Chemotherapy
hypnosis for distress associated with, 34
side effects, behavior intervention, 34
Chest roentgenogram, febrile infants less than 8 weeks of age, 821
Child abuse: *see also* Sexual abuse
accidental injury versus, long-bone fractures, 471
differentiation, osteogenesis imperfecta, 987
presented as corporal punishment (letters), 1288
small bowel evisceration as indicator of, 807
tap water burn injury, water heater legislation effect, 572
Valsalva effect mistaken for (letter), 420
Child care, options for sick children, special article, 705
Child health
morbidity, comparisons, clusters, and trends, 519
wilderness medicine for children, 967
Child-rearing practices, predictor of cognitive and motor development, 954
Children, preadolescent, normative sexual behavior, 456
Child safety: *see also* Pedestrian safety
bicycle helmet promotion, emergency room, after bicycle injury, 43
children in pickup trucks (committee statement), 393
drowning risk reduction, 1168
encouraging bicycle helmet use (letter), 412
injury prevention efforts, low-income urban children, 1112
traffic safety education (commentary), 868
wilderness medicine for children, 967
Cholesterol
fish oil therapy effect, patients receiving renal replacement therapy, 265
plasma cotinine concentration and, passive smoking effect, adolescents, 259
screening
hypothyroidism in hypercholesterolemic children, 332
office-based, children and adolescents, 250
Chromosome, translocation, Typus Edinburgensis, 151
Chronic fatigue, infectious and psychologic aspects, adolescents, 195
Cigarette smoking, clove, hazards of (committee statement), 395
Cimetidine, contraindication during breast-feeding (letters), 1294
Clavicle, fracture, diagnostic clue, breast-fed infant (letter), 657
Clofibrate, neonatal jaundice (letters), 1292
Clothing dye, skin discoloration caused by (letter), 417
Cocaine
prenatal exposure
effect on circulating catecholamine concentrations, 481

neonatal stress behavior and, 477
suburban setting, 825
Cognitive performance, long-term, neonatal bilirubinemia effect, 828
Colic, acute, excessive crying, stepwise assessment, 450
Commentaries
Antiretroviral treatment for children with human immunodeficiency virus infection, 389
Baby bottoms and environmental conundrum: Disposable diapers and the pediatrician, 386
Breast-feeding trends: A cause for action, 867
Brief history of infant nutrition and view to the future, 1054
Can adolescent suicide attempters be distinquished from at-risk adolescents?, 636
Frogger, 868
Improved support for children with disabilities, 1057
Infants at high risk for sudden infant death syndrome??? Have they been identified???— A commentary, 1274
Interpreting the notion of "nonbeneficial," 637
Kwashiorkor: The hypothesis that incriminates aflatoxins, 376
Pediatricians' relation to for-profit corporations, 1280
Prenatal origin of hemiparetic cerebral palsy: How often and why?, 1059
Remembering as we look ahead: The three E's and firearm injuries, 379
Risky business: Adolescents and human immunodeficiency virus, 1052
The academic generalist: Still endangered species?, 383
The academic generalist: Still an endangered species? A response, 385
The American Academy of Pediatrics relations to for-profit corporations, 1278
What happened to the predicted glut of pediatricians?, 870
Why not have more milk?, 1056
Communication, physician-children-parent, intervention, randomized trial, 351
Computed tomography, brain lesion diagnosis, after extracorporeal membrane oxygenation, 1004
Computer-generated appointment reminders, 801
Convulsion: *see also* Seizure
febrile, prolactin and cortisol levels, 486
Coronary heart disease, hypercholesterolemia screening, at risk adolescents, 269
Corticosteroids, juvenile rheumatoid arthritis, deflazacort versus prednisone, 428
Cortisol, postictal serum levels, epileptic and nonepileptic events, 486
Cotinine, plasma contentrations, passive smoking effect, adolescents, 259
Cough, psychogenic, bedsheet wrapping technique (letters), 1077
Coxsackievirus, acute focal encephalitis caused by, 841
Creatine kinase isoenzyme BB, neonatal cerebrospinal fluid, short-term outcome, 1204
Creatinine phosphokinase, serial monitoring, treatment of severe asthma, 1180
Criminal court, child sexual abuse, legal proof in absence of physical evidence, 506
Critical care, interhospital transport, conference consensus, 696
Cyanide, delayed toxicity, from cosmetic nail remover ingestion, 337
Cystic disease, acquired structural genitourinary abnormalities and, 1238
Cystinosis, nephropathic, acquired structural genitourinary abnormalities and, 1238

Day care
infirmary style for sick children, 290
options for sick children, special article, 705
Deflazacort, juvenile rheumatoid arthritis, comparison, prednisone, 428
Deleading, potential risk factors, lead-poisoned children, 893
Demographics, breast-feeding declines, United States, 719
Depression
chronic fatigue and, adolescents, 195
maternal, breast-feeding and, lower SES women, 728
Development: *see also* Growth
cognitive
HIV-1 seropositive children, 58
illness causality reasoning in chronic illness, 608
cognitive and motor, predictors of, 954
follow-up, extremely low birth weight infant, 115
morbidity related to, malnourished Kenyan toddlers, 934
neurologic, early physiotherapy intervention effect, very low birth weight infants, 547
normal sexual behavior, preadolescent children, 456
outcome prediction, high-risk neonates, 1135
preschool screening for speech-language problems (letters), 875
screening tests, comparative review (letters), 180
Developmental quotient, early physiotherapy intervention effect, very low birth weight infants, 547
Dexamethasone, cautionary note, at-risk premature infants (letters), 413
Diabetes mellitus
hospital readmissions, 98
insulin-dependent, severe hypoglycemia with, 1187
Diarrhea
acute, effect of human *Lactobacillus* strain, 90
oral rehydration
availability of solutions, First World (letters), 1073
diet soda, starvation ketosis after, 806
rice-based solution (letters), 658
use and misuse (letters), 656
persistent, soy formula versus khitchri and yogurt, 1010
traveler's, wilderness medicine for children, 967
Diet, maternal, effect on human milk and nursling behavior, 737
Disability
childhood morbidity study, 519
supplemental security income for children, 1047, 1057 (commentary)
Discipline, hypovolemic shock after corporal punishment (letters), 1288
Disposable diapers, environmental impact, pediatrician role (commentary), 387
Distraction, efficacy, chemotherapy distress management, 34
Dog bite, epidemiologic characteristics, urban children, 55
Down syndrome, obstructive sleep apnea and, 132
Drowning, risk reduction, attitude-practice gap revisited, 1168
Drug
antimicrobial, otitis media with effusion, comparison study, 215
antiretroviral, HIV infection (commentary), 389
"pedia-" product proliferation (letter), 874
prescription, direct-to-consumer advertising (committee statement), 174
Drug abuse
intrauterine cocaine exposure, suburban setting, 825
maternal
effects on neonatal stress behavior, 477
infants of HIV-positive mothers with history of, 1248
nasally inhaled, foreign body pulmonary granulomas after, 159
Dysphasia
clinical characteristics, 1211
epilepsy risk factors, 1219
Dysplasia, skeletal, Weismann-Netter syndrome as cause of bowed legs, 334
Dyspraxia, verbal, patients with treated galactosemia, 346
Dystonia, glutaryl-coenzyme A dehydrogenase deficiency, 1194

Eating disorder, nutritional dwarfing, psychosocial functioning and, 926
Editorial, The surfactant era—starting off right!, 168
Education, HIV-infected children (task force recommendations), 645
Egg sensitivity, hypersensitivity to measles-mumps-rubella vaccine and, 913
Ego, maternal, breast-feeding and, lower SES women, 728
Electricity, household magnetic fields and childhood leukemia, critical analysis, 630
Electrocardiogram, role, treatment of severe asthma, 1180
Electroencephalogram, confirmation of neonatal seizure, neurologic outcome after, 583
Electromagnetic field, residential exposure, childhood leukemia and, 630

Emergency medicine
ambulatory care centers, 230
pediatric transport, private practitioner survey, 691
prehospital care, urban and rural areas, 681
preparedness of practicing pediatricians, 223
technical skill requirements, general pediatric practice, 670
Emergency room
prior approval policy, 674
resident-related liability (letters), 1076
Encephalitis, focal, with Enterovirus infections, 841
Encephalopathy, glutaryl-coenzyme A dehydrogenase deficiency, 1194
Encopresis, parental solution (letters), 877
Endothelin
role, retinopathy of prematurity (letter), 874
urinary concentration, hemolytic uremic syndrome, 1063
Enterovirus
focal encephalitis with, 841
paralysis related to, during recovery from acute bronchial asthma, 276
Enzyme-linked immunosorbent assay
Lyme disease diagnosis, 465
measles-specific antibodies detected by, previously vaccinated school-age children, 1024
Eosinophilia, after maternal consumption of L-tryptophan during pregnancy, 810
Epidemiology
autistic and dysphasic children, 1211, 1219
seizure risk after measles-mumps-rubella vaccine, 881
Epilepsy
incidence, after electroencephalographically proven neonatal seizure, 583
prolactin and cortisol levels, comparison, nonspecific fever, 486
risk, autistic and dysphasic children, 1219
Erythrocyte protoporphyrin, decision threshold, lead poisoning screening, 121
Ethics
accepting gifts from pharmaceutical companies, 1233
gift-giving pharmaceutical companies (commentary), 1280
preterm delivery in terminal illness, 1268
Exercise, prescription, deficiency of (letter), 185
Eye, hemorrhage, Valsalva effect (letter), 420

Factor V inhibitor, after liver transplantation, 156
Failure to thrive, nutritional dwarfing and, psychosocial factors, 926
Family
background, predictor of cognitive and motor development, 954
impact, very low birth weight infants, 105
variables, neonatal intensive care unit visitation, 795
Family practitioner, survey, pediatric emergency transport, 691
Fentanyl, continuous intravenous, primary central hyperventilation, brainstem glioma, 818
α-Fetoprotein, maternal serum screening (committee statement), 1282
Fetus
brain injury, hemiparetic cerebral palsy (commentary), 1059
cocaine exposure, suburban setting, 825
destructive brain lesions, cerebral palsy caused by, 898
preterm delivery, pregnant woman with terminal illness, 1268
Fever
acute illness and, predictors of mothers' clinical judgment, 1041
evaluation, infants with respiratory signs, 821
urinary tract infection and, young infants (letters), 416
Firearm
injury, prevention strategy (commentary), 379
pediatric injuries, reduction, legislative course, 294
Fish oil, hyperlipidemia treated by, patients receiving renal replacement therapy, 265
Fluoride, accidental ingestion, review of cases, 907
Food challenge, double-blind placebo-controlled, egg-derived vaccines in egg-sensitive children, 913
Food sensitivity, role, asthma (letters), 419
Footwear, appropriate shoes for children, review, 371
Foreign body, pulmonary granulomas, after nasally inhaled drug abuse, 159
Foreskin, irritation and discharge, group A β-hemolytic streptococcal balanitis, 154
Fussiness, stepwise assessment, infant, 450

Galactosemia, treated, verbal dyspraxia in, 346
Garlic, maternal ingestion, nursling's behavior affected by, 737
Gastroenteritis, starvation ketosis after diet soda rehydration, 806
